

# Saving & Improving Vision Close to Home

## THE AEP DIFFERENCE

For over 35 years, Michael J. Flohr and Associates have been serving the eye care needs of our community and the surrounding areas. AEP doctors use the latest equipment for diagnosis and treatment and are dedicated to saving and improving vision close to home.

In addition, all members of the AEP staff participate in continuing education opportunities designed to enhance your overall care and experience.

Patients are educated so they can make informed decisions on the best ways to take care of their eyes. From infants to seniors, you're taken care of by professionals that care about you!
